December 1, 2020

Dear Friends,

Greetings! I wanted to just let you know, my Geekabytes family, about the happenings of Geekabytes for 2021. We will be relocating at the end of the year and will close the storefront at 918 S Main Street in Stillwater, Oklahoma.

While our location may change and our brick and mortar store may close; one thing that will remain the same is our services we provide to you. We will no longer have a storefront for retail, merchandise pickup, and or drop-off. Instead we will come to you for pickup and delivery as well still provide the on-site support like we've always offered. Soon we will launch a mail-in, mail-back service later in 2021.

Since the beginning in March of 2006, Geekabytes started to grow, we grew from a garage part-time hobby business into a full-time company with staff. We opened a storefront for retail sales and drop-offs in August of 2009 and for over 11 years, Geekabytes has been located on Main Street in Stillwater, Oklahoma providing retail and counter support for your computer equipment with great success, then 2020 hit.

Who knew a global pandemic would cause so much change in the world? And, not only a pandemic, but we've known for a while the market trends and market needs have changed. With the shift in shopping trends, electronic product offerings, prices, and demands, we unfortunately can't compete with the other big-box store on retail merchandise. With this being said, we felt it best we close the brick and mortar store for retail service offerings. We want to thank you for trusting us to for your computer, network, and website support as we continue and transition into a new way to offer our services.

We will stay fully operational at our Main Street location until December 23, 2020 and close for the Christmas Holiday. During the period of December 23, 2020 to January 1<sup>st</sup>, 2021, we will have fully operational phones, email, on-site, and remote support. We will begin our move out of the Main Street location. Don't worry about the production of project which are on-going before/during the 23<sup>rd</sup> and beyond. Those will still be handled and processed. We might call to arrange another method if it was dropped off on Main Street. You should not experience any delays in any service. If you have questions, please don't hesitate to reach out.

**Please update our new mailing address:**

Geekabytes, LLC  
PO Box 1215  
Stillwater, OK 74076

**Our other contact information will remain the same:**

**Phone:** (405) 533-1715
